

Strengthening language maintenance through cooperative training strategies

This symposium brings together representatives of Indigenous organisations, networks, government agencies, research centres, and educational institutions, all of which are actively developing and implementing innovative training strategies to support Indigenous languages.

Join us to learn about the diverse programs for language documentation and revitalisation taking place across Australia and the Asia-Pacific region, and to discuss with us ways to strengthen cooperation and collaboration between programs.

When 18 - 19 August, 2011
Where Yasuko Hiraoka Myer Room
Level 1, Sidney Myer Asia Centre
The University of Melbourne, Parkville VIC
